Precious Pain

Callahan Divide

[Instrumental]
Oh let yourself into the front door
just like it when you come on in
â€˜cause we need to be alone
you can lay all your clothes throw them all down in a line leave them all there where mine lay,
I left a trail you can follow now,
I left the door cracked just come on in
oh darlinâ€™ I wanna wash all of your precious little pain away,
watch it all go down the drain
when I turn the water on,
steam is hot
blows and it fogs up the window, straight under the doorway, and on down the hall
where I left all my clothes, throw them all down in a line let them all there in the pathway
a little trail you can follow now, I left the door cracked just come on in, come on in, darlin I wanna wash all your precious little pain away
watch it all go down the drain when I turn the water on
[instrumental]
Oh darlinâ€™ I wanna wash all of your, your precious little pain away
watch it all go, watch it all go
down down down down the drain
mmhhmmmm
mhmhhmmhhmhmhm
