

Precious Pain

Callahan Divide

[Instrumental]

Oh let yourself into the front door
just like it when you come on in
â€˜cause we need to be alone

you can lay all your clothes throw them all down in a line leave them all there where mine lay,

I left a trail you can follow now,

I left the door cracked just come on in

oh darlinâ€™ I wanna wash all of your precious little pain away,

watch it all go down the drain

when I turn the water on,

steam is hot

blows and it fogs up the window, straight under the doorway, and on down the hall

where I left all my clothes, throw them all down in a line let them all there in the pathway

a little trail you can follow now, I left the door cracked just come on in, come on in, darlin I wanna wash all

your precious little pain away

watch it all go down the drain when I turn the water on

[instrumental]

Oh darlinâ€™ I wanna wash all of your, your precious little pain away

watch it all go, watch it all go

down down down down the drain

mmhhmmmm

mhmhmmhmmhmmhm
