

Get Busy

50 Cent

Get busy get busy
I'm insane yeah chained
I'm the head of the brain
In a weird gang
Make it rain, trick make it rain
I hold on the money buy more cocaine
Off the chain nigger I ain't playing
I get it him the semi nigger stun I let it rain
He rap I rap but we ain't the same
We love our game I run a train
Canary yellow erupts in my brain
Everything private my hoes in my planes
Every now bartender more champagne
I shine like crowman's Arizona rain
I stunt when I want
I ain't never gonna change
I go load the wood in my cardian frames
This what happens when the great big genie
Blow up on my own out this...
I ball out bottles after bottles
Till I fall out I stunt, I do it my way
I'm on now, get my money long now
Look here, nigger you ain't got it like me
You're not like me
Get busy get busy...
You're not like me
Get busy busy...
You don't like me
Tell me why you don't like me
My chain too icy

The diamonds on my brightness
Striking like lightning
Throwing cake on your wife
When she liking the icing and I
It's not even my birthday
She telling me she love me
And I wanna be your happy pusher
Then pulled the beetle in the first place

Nowadays the Ali Key let me hold some
Look nigger cause I know you know
And I know you nothing
With your rope in, coat in
Type of nigger gonna get wild with no man
Ride a game thing, play the b
