

# Superstar

NLT

She's on the phone  
Asking me things like  
Who else is home  
I said it might be just me  
She might be coming over  
She beeps the crib  
And takes a deep breath  
This thing is big  
I said yeah definitely  
I shouldn't have let her come over 'Cause now she's up in my room  
Out by the pool  
Lookin' a fool  
Trying to do  
Anything that she can do to get a superstar to choose her  
(Oh baby) She only talks to me 'cause I'm a superstar  
She only rocks with me 'cause I'm a superstar  
Anything that she can do to get a superstar to choose her  
(No baby)  
She only wants to be seen with a superstar  
She'll dump a man to be with a superstar  
Anything that she can do to get a superstar to choose her  
(No baby) She's making plans  
For me to meet her girlfriends  
Saying I'm her man  
But this is news to me  
No I didn't get the memo I said hold up  
Lady you can't date me  
You're like 35  
you tryin' to rape me (no no no)  
Let me go  
you gotta go (go) 'Cause now she's up in my room  
Out by the pool  
Lookin' a fool  
Trying to do  
Anything that she can do to get a superstar to choose her  
(oooh) She only talks to me 'cause I'm a superstar  
She only rocks with me 'cause I'm a superstar  
Anything that she can do to get a superstar to choose her  
(No baby)  
She only wants to be seen with a superstar

She'll dump a man to be with a superstar  
Anything that she can do to get a superstar to choose her  
(No baby) But she saw my ride, sittin' up high on them bank bank  
Must have seen my vids, seen my kicks and this gold chain  
Must have seen the show  
We rock the show like we were posed to  
I guess this is what superstars have to go through Cause now she's up in my room  
Out by the pool  
Lookin' a fool  
Trying to do  
Anything that she can do to get a superstar to choose her She only talks to me 'cause I'm a superstar  
She only rocks with me 'cause I'm a superstar  
Anything that she can do to get a superstar to choose her  
(Oh baby)  
She only wants to be seen with a superstar  
She'll dump a man to be with a superstar  
Anything that she can do to get a superstar to choose her  
(No baby)
