Headed

Downhere

Anchor up, tow me out
Of this pit I'm dreading
Turn this vessel's
Path aroundI look above, I'm in love
With the pace you're setting
From this stream
We're ocean boundAnd I know for sure I'm headed
Straight for the edge
And I know for sure I'm headed
Straight for the edge
'Cause that's just where You areI'm the son
You're the King
Makes me royalty now
It's no title without painIn the end it is well
After storms and beatings
These muddy rivers
Empty outAnd I know for sure I'm headed
Straight for the edge
And I know for sure I'm headed
Straight for the edge
'Cause that's just where You are
Just where You areThat's where You are
That's where You areAnd I know for sure I'm headed
Straight for the edge
And I know for sure I'm headed
Straight for the edgeI know for sure I'm headed
Straight for the edge
I know for sure I'm headed
Straight for the edge
'Cause that's just where You areAnchor up, tow me out
Of this pit I'm dreading
