

Finagle the Bagel (feat. Young Lito)

[Troy Ave](#)

Advisory - the following lyrics contain explicit language:

It's just the way my day go tryna finagle the bagel
Playing with the Legos, I'm talking about the yayo
I be in the mix, in the mix, in the mix, in the mix, in the mix
Making money flip, make it flip, make flip, make it flip, make it flip A nigga hardly right but I did this time
Whipping up the white yeah you know his rhymes
All he talk is dealing, balling shit, and killing
That's what the fuck I'm seeing on my way to a million
Would you rather I be broke, a struggle rapper for your laughter with no hope?
Them niggas lead you to disaster in they quotes
It was depressing every time them niggas spoke
I talk about getting the most out of life my nigga
I can't settle and grin, I'm ain't a Pilgrim, I am built to win
That's why I do well with the blow, I just chill and win
The boy got a glow can't filter him It's just the way my day go tryna finagle the bagel
Playing with the Legos, I'm talking about the yayo
I be in the mix, in the mix, in the mix, in the mix, in the mix
Making money flip, make it flip, make flip, make it flip, make it flip These niggas don't wanna see me ball, they
rather see me fall
Or laying in the morgue, instead of shopping at the mall
Mad cause I'm like Wall, your boy a young Wizard
When it come to them digits they know I really get it
Got the city on my fitted and the hood on my back
A lot of gold around my neck and on my hip is the strap
They say since I started rappin' I don't know how to act
But I was never into acting, so front and clapped
Man down, all you little niggas better stand down
You can't block these shots, put your hand down
The block I used to walk on getting ran now
You ain't deaf I know you heard I'm the man clown It's just the way my day go tryna finagle the bagel
Playing with the Legos, I'm talking about the yayo
I be in the mix, in the mix, in the mix, in the mix, in the mix
Making money flip, make it flip, make flip, make it flip, make it flip It's just the way my day go tryna finagle the

bagel

Playing with the Legos, I'm talking about the yayo

I be in the mix, in the mix, in the mix, in the mix, in the mix

Making money flip, make it flip, make flip, make it flip, make it flip
