

Ruby Over Diamonds

Kashmir

what a wonder
it is to see you
what a wonder
it is to feel you I found your hideout
in the rubble
where you can cry out
when you're in trouble now I want to be
in your hide and seek
now I want to make children do I scare you
or make you frightened
don't you dare to move
the rope's will tighten is it over
does it hurt you
all I wanted was
to divert you now I want to be
in your hide and seek
now I want to make
love to, love to, love to you you're the glacier
I'm the bonfire
you're the treasure
that I desire you're the ruby
over diamonds
shy and moody
you're a wonder
wonder
