

# Dark Street

## 6. Tesla Boy

When will it stop raining?  
When will these dark clouds go?  
Some days I get so low but you turn me around  
You turn me around  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine?  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine?  
You take away my sadness  
And the pain inside my heart  
Sometimes I fall apart but you turn me around  
You turn me around  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine?  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine, sunshine, yeah?  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine?  
Won't you come down to my dark street  
And shine a light 'cause I need your sweet sunshine?  
Oh yeah, oh come on down, come on down  
And never leave my sky again  
Shine your love light, love light, love light, love light  
Down on me, down on me, yeah
