

# Best Night

## Madonna

You can call me M tonight  
You can be my man tonight  
It's gonna be like this, that's right  
Give you love that you'll never forgetThe city is our playground tonight  
We're gonna be like gangsters tonight  
We don't give a damn if it's wrong or right  
Lighten up, we won't have no regretsI'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your lifeLose your self-control, we can go wild  
Show you what it means to feel alive  
I'll make this the best night of your life  
I'll make this the best night of your lifeWe don't have to speak that much  
I hear you when I feel your touch  
Whisper in my ears, make me blush  
Feel the chill when we kiss, don't forgetAll you had is dreams, don't hold back  
All the fantasies you ever had  
Just do what you like, go ahead  
Close your eyes, make a wish, no regretsI'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your lifeLose your self-control, we can go wild  
Show you what it means to feel alive  
I'll make this the best night of your life  
I'll make this the best night of your lifeSurrender to the pleasure (wanting)  
When we breath in together (waiting)  
It's either now or never (for you)  
This feeling will take overNo sex tapes, no camera (wanting)  
Just you and me together (waiting)  
Repeat it like a mantra (for you)  
I'm in love, I'm in loveI'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your life  
I'll make this the best night of your lifeLose your self-control, we can go wild  
Show you what it means to feel alive  
I'll make this the best night of your life  
I'll make this the best night of your life
