

Keep This Party Going

The B-52's

Fast forward, wheres my remote?
Wild-eyed in a crazed haze
Fast forward, rock this boat
Party going for days and days Follow your bliss but remember this
Its all about the kiss
As I gaze at the skies and look into your eyes
I just cant resist, crank it! Attain enlightenment, gotta move it to the front
We gotta be part of the universe
Take this party to the White House lawn
Things are down and dirty in Washington! Go to church on Sunday, party on Monday
And every other day of the week
Were just a bunch of party geeks
(Lets keep this party going on) Crank it, slam it, wear me out
(Lets keep this party going on)
Elevator rising fast
Crank it, crank it, wear me out
(Lets keep this party going on)
Up and out, ready to blast!
(And on and on and on) Fast forward, grab the remote
Love the way you move that stuff
Fast forward, slam that note
Either way, slow or rough If you feel uptight and you make it alright
Its part of this earthly delight
I can hear the sound from the underground
So lets get wild tonight, crank it! Attain enlightenment, gotta move it to the front
We gotta be part of the universe
Take this party to the White House lawn
Things are down and dirty in Washington! Go to church on Sunday, party on Monday
And every other day of the week
Were just a bunch of party geeks
(Lets keep this party going on) Crank it, slam it, wear me out
(Lets keep this party going on)
Elevator rising fast
Crank it, crank it, wear me out
(Lets keep this party going on)
Up and out, ready to blast!
(And on and on and on) Attain enlightenment, gotta take it to the front
We gotta be part of the universe
Keep this party going all night long

Things are getting dirty in Washington! Attain enlightenment, gotta take it to the front

We gotta be part of the universe

Keep this party going all night long

Things are getting dirty in Washington! Lets party in Athens
