# Whisper

## Wayne

I'm not the pavement you're looking for
And I didn't come with a view
And I wouldn't trade a box of rocks
For things you think are worth enough
To get a generation throughI don't make my shape with your phony eyes
And I won't sit down till I'm through
And I take time because it's mine
Not so I can waste it on the things that I don't need to doI know what to look for in a waveTake a breath, it'll be over soon
And I'll do it with a whisper
You won't even know that I'm in the room
And I'll do it with a whisperAnd hat you see is only what you see
And what you feel covers the rest
Well, tell me why the things I see
Just don't make me feel like
Everybody wants to do there best?I'm just trying to help you with your bagsTake a breath, it'll be over soon
And I'll do it with a whisper
You won't even know that I'm in the room
And I'll do it with a whisperI won't ride the tails that are going down
When there's more to do
And I know what to look for in a waveTake a breath, it'll be over soon
And I'll do it with a whisper
You won't even know that I'm in the room
And I'll do it with a whisperWell, take a breath, it'll be over soon
And I'll do it with a whisper
And you won't even know that I'm in the room
And I'll do it with a whisper
