

The Things You Think I Say

ABiCA

Line em all up and we'll knock em down
Lost in the music in the sound
Now you're coming back to me but we're never meant to be
Now I see what I've done
But I'll never be the one
Cuz I'll never be what you need
And you'll never see it in me
So let it break, just one mistake
What we had was never fake
It was real, it was true
It's the best that we could do
I got that feelin that's when
I started thinking again
I keep on going and I'm knowing that this aint gonna end
Chorus
It's just the way we do the things we do
I'm here for music your here for the things you think I say about you
It's just the way I use you how I do
I know your using me too that's why I know I can do it to you
Don't stop get it get it
The way you let me in it
The way you let me hit it got me going crazy wit it
Don't talk quit it quit it
Cuz when we're done we're finished
I'm nothing more to you than someone more to say you did it
You wanna party with me y want the same
There's something here for both of us same type of lust just different names
You got me thinking that's when
i started drinking my friend
And all these pretty dolls got me back here up it again
It's just the way we do the things we do
I'm here for music your here for the things you think I say about you
It's just the way I use you how I do
I know your using me too that's why I know I can do it to you
You trust me to this point
Gonna break now
And I hear you in my mind
I can't see straight
It's just the way that we do that we do
Grab a drink
You start to think
And I'm saying, are you listening?
It's just the way we do the things we do
I'm here for music your here for the things you think I say about you

It's just the way I use you how I do
I know your using me too that's why I know I can do it to you
