

Under The Blacklight

[Rilo Kiley](#)

when you get sober
will you get kinder
cause when you get uptight
it's such a drag when I get older
i won't remember
until that day comes
i've got something on you under the blacklight
out in the garden
into the pale moon
i'll be waiting under the blacklight
under the blacklight even dead men
lie in the their coffins
it's been a long time
since you felt better under the blacklight
out in the garden
into the pale moon
i'll be waiting under the blacklight
out in the garden
into the pale moon
under the blacklight somewhere in Laredo
borders a soft man
like a black widow
i'll be crawling under the blacklight
out in the garden
into the pale moon
under the blacklight down in the valley
up in the dark blue
under the blacklight
under the blacklight
