Drive

The Coathangers

You, you drive away from me
And I wait, I wait for you
Daydreaming of the way we
Ought to be
It takes it out of me
Cuz it's been long baby
It's been too long
And I wish you that you were driving home
But you, you drive away from me
You, you say those things I wanna hear
I like them in my ear
And I don't care where you go
Or what you said
I want you in my bed
But the distance baby it makes me sad
And I'm missing what we never had
And you, you drive away from me
Oh...so long my love
Oh...so long, so long....love
You, you say that's how it is for us
Our inconvenient lust
Well I got things to do
I gotta go, won't wait around no more
Cuz it's been long baby
It's been too long
And I wish that you were driving home
But you, you drive away from me
I like it at the very start
Didn't think you could get to my heart
And I don't wanna let it show
But it kills me baby to watch
You go
