

Liquid Angel

Angel Dust

Once again the pictures
disarray
No more empty words
that go astray
Paralyze I step into
the stream
Hoping all my lies
will follow me I feel the dawn rise in me
The light disappears
I start to regret
I can't break these chains
I die to live again Ever so I try to turn around
Electrifying voices
tie me down
My senses are erased
I'm breathing in the flames
The termination has begun
I cannot break these chains [Chorus]
