

Never Know Why

Ozzy Osbourne

If we're offensive and pose a threat
You fear what we represent is a mess
You've missed the message that says it all

And you'll never know why
Oh no, you'll never know why
We rock

It's just a feeling how we excite
You cannot rule everybody in sight
But you condemn, don't understand

And you'll never know why
Oh no, you'll never know why
We rock rock rock

We rock rock rock

We rock rock rock

You'll never know why

We rock

I leave you cold and in disgust
Don't try to tame me, you'll eat my dust
I know that you know not what you do

That's why you'll never know why

Oh no, you'll never know why

We rock rock rock

We rock rock rock

We rock rock rock

You'll never know why

We rock rock rock

We rock rock rock

We rock rock rock

You'll never know why

We rock
