

# Spacewalk

## Momus

We're on a spacewalk  
We ride the soul train  
We hear the bass talk  
It's saying nothingI want to see you  
    I want to feel you  
    I want to touch you  
I want to be with youWe're in the basement  
    We're watching baseball  
    We're getting out of our heads  
Were we ever in them?We take the smart drug  
    So we can think straight  
    We take the empathy drug  
        And get on great  
        And in the wintertime  
        It feels like summertime  
        And in the summertime  
It feels so strangeWe ride the soul train  
    Just like the brothers  
    We dance to dead men -  
Marley, Marvin, Otis and many othersWe're on a spacewalk  
    We're walking inside  
    That's where the space is  
That's where the love diedI want to see you  
    I want to feel you  
    I want to touch you  
    I want to be with you  
    We're on a spacewalk  
    We ride the soul train  
    We hear the bass talk  
It's saying nothingI want to see you  
    I want to feel you  
    I want to touch you  
    I want to be with you, oh
