

# Throw It All Away

## Zero 7

Try talking to you  
While you do, while you do  
I swap places with you  
Just to see things through Just sing me the tune and you'll see  
I'll keep it here for you  
I'll wait for your cue You wrote down all the words  
Black and white in a row  
Just keepin' it so  
Yeah, you know how it goes No plans for a change  
Nothing strange, no, not today, no way  
Now, sing me the tune Cash it in and throw it all away  
Never needed any of it anyway So you twist and you turn  
Uncomfortable fool, you'll never learn  
But you can take a stand  
Forget all about the plans, California roads Side one, track two  
On a record of you  
Even stuck on a groove  
That I don't wanna lose Just play it again as a friend  
It's your favorite worn in shoes  
Now sing me the tune Cash it in and throw it all away, yeah  
Never needed any of it anyway So you crash and you burn  
Sometimes the road will twist and turn  
Some of this, less of that  
Forget all about the map, California road Cash it in and throw it all away  
Never needed any of it anyway  
Cash it in and throw it all away, yeah  
Never needed any of it anyway Cash it in, let's throw it all away  
Never needed any of it anyway  
Cash it in, let's throw it all away  
Never needed any of it anyway
