

# A Day in the Life

David Usher

Did you feel small today when everyone had gone  
'Cause I was beaten up and jaded by the news  
And underneath the skin the truth is breaking through  
So they just sewed me up and spit me out  
And I can't change it  
I can't change this You you take away the world  
And I don't even know myself now  
So how can I know you  
And I don't want to die  
And I don't want to leave this place yet  
Just give me one more try My thoughts are floating as reality explodes  
I'm whispering to each of you my friends  
And every moment seems to freeze frame through the room  
All the colors are electrified  
But I can't see now  
I can't see now You you take away the world  
And I don't even know myself now  
So how can I know you  
And I don't want to die  
And I don't want to leave this place yet  
Just give me one more try And I'm drifting through myself again  
Tell me how I got so high  
Where the conscience bends the air is thin  
And I can't change it  
I can't change this You you take away the world  
And I don't even know myself now  
So how can I know you  
And I don't want to die  
And I don't want to leave this place yet  
Just give me one more try  
And I don't want to die  
And I don't want to leave this place yet  
Just give me one more try One more try, yeah  
Just give me one more try  
One more try, yeah  
Just give me one more try
