White Fences

Needtobreathe

Last night you left a note
That your white fence was gone
Where is your head? Stuck in a hole
Was the first time
You had a chance and you gave it all up
With nothing left, stuck in a holeAnd I feel like I'm in hell
'Cause I tried to save myself
I didn't think I needed help, was it too late?
Walking through the wastelandGreat light has kept my compass pointed
Down in the dirt
I've got nothing left, stuck in a hole
And the light shines into the darkest places
For a desperate heart
When I was left stuck in a holeAnd I feel like I'm in hell
'Cause I tried to save myself
I didn't think I needed help, was it too late?
Walking through the wastelandCrawling through the wasteland
Looking for a true friend
Standing out with both ends
I'll never stop lookingFor the way out through the wasteland
I don't wanna stay in
