Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Oh, remember thatEverything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
Everything is on the one today y'all, that's where it's at
Everything is on the one today y'all, now get to thatEverything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the oneEverything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
Everything is on the one today y'all, that's where it's at
Everything is on the one today y'all, now get to thatEverything is on the one
Everything is on the one
Everything is on the one
Everything is on the oneEverything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
