

Don't Pass Me By

No Fun At All

I am what I am, what I am, what I am, what I am, what
I am what I am, I am what, I am what, I am what I am
What I am, what I am, what I am I overheard your conversation in the night
It seemed to me that everything you said was right
I know that you have seen the tragedy of life
I can't control myself, don't try to pass me by
Don't ever try to pass me by
