# Long Hot Summer

## Glenn Frey

Lord, I ain't never seen weather like this
It's a hundred and ten in the shade
It feels like the devil moved here himself
To see the trouble he madeEverybody's 'bout to go insane
They're crazy from the heat
Nobody wants to go outside
There's danger in the streetIt's gonna be a long, hot summer
People dream of leavin' town
Get ready for a long, hot summer
Feel the hammer comin' down, comin' downYou see the heat comin' up from the sidewalk
You can feel the temperature rise
All I see is a blazin' sun
Burning a hole in the skyI never thought that it could be like this
24 hours a day
It's too hot to sleep, were in trouble so deep
And you know there's no running awayIt's gonna be a long, hot summer
This place is like a burning hell
Get ready for a long, hot summer
There ain't no water in the wellIt's a long, hot summer
A lot of sweat and misery
It's a long, hot summer
It's killin' you and killin' meSo you scream and shout, but there's no way out
You just live with a lock on your door
There's a fire in the sky and the earth is so dry
Like a cracking ground, you can't take anymoreIt's three o clock in the morning
(Don't do it)
You wait for the sirens to moan
(Don't do it)
You stare at the trigger, but somehow you figure
You don't feel like dying alone
(Don't do it)The mean streets are getting meaner
Everybody's got a gun
This ain't no city, it's a nightmare darlin'
Were all dying in the sunIt's gonna be a long, hot summer
People dream of leavin' town
Get ready for a long, hot summer
Feel the hammer comin' downIt's a long, hot summer
Never seen a drop of rain
It's a long, hot summer

Nothing's gonna kill the pain
