

Lay Down My Worries

[Harry Manx](#)

I'm moving along at the speed of light
Got the rhythm now down in my bones
But I've been around so long it seems
I turn around lord to face my home You stood there darling
Always ready for the unknown
I want to .. lord I got to
I'm gonna lay down my worries
Lay down my worries We work so hard just to make things right
We don't mind living out of need
Long as you're there just to shine your light
Well I'm gonna pray for all God;s speed Lord you bring me comfort
The likes of which I've never known
And I want you lord I've got to
Lay down my worries
