

# THINKING of YOU

## Victor Fields

I though I was over this but baby it's through,  
Now every love song reminds me of you.  
I'm so confused I don't know what I should do,  
I know it's over, I'm such a fool, I'm always thinking of you.

(Chorus)

Thinking of you when the sun comes up to light the morning skies  
Thinking of you when the night rolls in and I'm supposed to close my eyes.  
I'll be thinking of you though I want your memory erased out of my life  
Can't stop thinking of you (Thinking of you), I'm always thinking of you.

I was ok until I let you inside my life,  
A casual affair but then you looked into my eyes.  
I don't know why cause all I do now is cry the blues,  
I know it's over, I've been such a fool, I'm always thinking of you.

(Chorus)

Thinking of you when the sun comes up to light the morning skies (Morning skies)  
Thinking of you when the night rolls in and I'm supposed to close my eyes.  
I'll be thinking of you though I want your memory erased out of my life  
Can't stop thinking of you (Thinking of you), I'm always thinking of you.

Can't let go,  
although I closed the door so long ago.  
I freed my body, Can't free my mind and my soul  
I just keep thinking aboutcha baby

(Chorus)

Thinking of you when the sun comes up to light the morning skies (You light the morning skies)  
Thinking of you when the night rolls in and I'm supposed to close my eyes.  
I'll be thinking of you though I want your memory erased out of my life  
Can't stop thinking of you (Thinking of you), I'm always thinking of you.

Thinking of you when the sun comes up to light the morning skies  
Thinking of you when the night rolls in and I'm supposed to close my eyes.  
\*music plays\*  
Can't stop thinking of you (Thinking of you), I'm always thinking of you.
