Take It Back

Face to Face

I won, I worked too hard to get it
So what? It's over, just forget itToo much, too soon, too late, until you realize
You've got it made? You're in for a big surpriseThat's not what I want at all, that's not what I wanted
Can I take it back? Can I take it back? I'm askingIt's gone and I don't want to fake it
It's wrong, I've become the one I hated
