

# I Will Be Free

[Nil Lara](#)

Birds in the air, will I keep on hoping for myself  
For many years I've been held inside this wishing well  
I can't see anymore, I've tried to reason my life  
I can't feel anymore, I find it hard to survive  
And God will I see the day I will be free, I will be free  
If somebody hears  
Then I'm proud I've been a lucky one  
But sometimes I fear it's been a waste  
And the worst is yet to come  
I can't give anymore everything's been taken away  
And the ones I adore keep getting farther each day  
God let me believe the day I will be free, I will be free
