

# Interlude (Dream You)

## Beau Badrick

And I won't sleep to dream you  
I've already found you  
I won't close my eyes tonight

I won't sleep to dream you  
I've already found you  
I won't close my eyes tonight

And fast times  
Oh you're mine  
You're calling my name tonight  
Gotta be by your side

And moonlight it's midnight  
Our hearts are on fire tonight  
Gotta be by your side
