

# Come On Out Tonight

[Melissa Etheridge](#)

Well you got some tips and you learned some licks  
You wanna try and teach this old dog some new tricks, huh?  
Well you told your friends you'd have a little bit of fun  
You wanna walk on up now on number one, huh?  
You asked me if I'd like to dine, do you have enough courage  
Have you had enough wine, sunshine? Keep your head up  
Don't you sweat in the spotlight  
You're comin' out tonight  
Yeah, you're comin' out tonight Take a good hard look at this big star view  
Don't be bitin' off more than you're ever gonna chew, yeah  
You can break the rules when you play in the dark  
But every wild fire comes from a little bitty spark, yeah  
Does your mama know who you're hangin' around  
A souped up punk in a rock and roll gown, uh, small town Keep your head up  
Don't you sweat in the spotlight  
You're comin' out tonight  
Come on out tonight, come on out tonight  
Come on out tonight, come on out tonight (Are you ready for your big premiere?)  
People will think your acting sort of queer)  
Hey, well come over here Tell your friends that you won't be home  
You got a tiger by the tail and a tiger on the phone, yeah  
You're lookin' sharp, you got the right location  
Everybody's ready for the next sensation, your reputation Keep your head up  
Don't you sweat in the spotlight  
Keep your head up  
Don't you sweat in the spotlight now  
Keep your head up  
Don't you sweat in the spotlight  
You're comin' out tonight Come on out tonight  
Come on out tonight  
Come on out tonight  
Come on out tonight Come on out tonight  
Come on out tonight  
Come on out tonight  
Come on out tonight  
Come on out tonight
