

Way You Move

Slightly Stoopid

Dont need no reason to give,
Dont need no reason or why
Dont really care what you think
Just live your life in the right
And if you call it a game
Look around and youll see
A lot of people are hungry
And there looking to eat
Dont think about what you got
Or what you cannot afford
Before you roll to the store
Just change the labels before
You leave a check at the stand
Knowing your screwing the man
Because hed fucking with you
And now youve had it
Is it something in the way you move,
Got me thinking that my minds abusing
Is it something in the way you say,
That we thinking this is living today.
Or is it something in the way you move,
Got me thinking that my minds abusing
Is it something in the way you say,
That we thinking this is living today.
Cause all the things that you be thinking out loud,
Dont necessarily matter if your running your mouth
Because you never really know who you be talking about
He could be crazy enough to pull a gun and be out
Dont think about the things that you know must be wrong,
And if youre moving along
You must be feeling as strong
And if you think about the things
That you know must be right
While your wowing and bowin
To get up while you get up in it
