Way You Move

Slightly Stoopid

Dont need no reason to give,

Dont need no reason or why

Dont really care what you think

Just live your life in the right

And if you call it a game

Look around and youll see

A lot of people are hungry

And there looking to eat

Dont think about what you got

Or what you cannot afford

Before you roll to the store

Just change the labels before

You leave a check at the stand

Knowing your screwing the man

Because hed fucking with you

And now youve had itIs it something in the way you move,

Got me thinking that my minds abusing

Is it something in the way you say,

That we thinking this is living today.

Or is it something in the way you move,

Got me thinking that my minds abusing

Is it something in the way you say,

That we thinking this is living today. Cause all the things that you be thinking out loud,

Dont necessarily matter if your running your mouth

Because you never really know who you be talking about

He could be crazy enough to pull a gun and be outDont think about the things that you know must be wrong,

And if youre moving along

You must be feeling as strong

And if you think about the things

That you know must be right

While your wowing and bowin

To get up while you get up in it
