Old Blue Sweater

Buck

I walk around all night thinking about you
I walk around all day can't
Get along without you
I'd walk away but my love is here to stay so
I'll walk alone 'til you come homeA day without you seems like a year or two
What am I gonna do to get you back
My fault fairweather friend that we're not together
Put on your old blue sweater; still smells like youGuess I'll just waste away until you come to stay
Oh what a day that'll be
When you come home to meSo won't you come home for just a little while
Won't you come home so I can see you smile
I'd walk away but my love is here to stay so i'll
Walk alone 'til you come homeThese streets we walked around just like we owned this town / when I was
Lost you found me crying
Now it's just empty space; it's you I can erase
Without your funny face I'm dyin'I'll make it up to you; do what you wanna do
Oh what a day that'll be
When you come home to meI blew it; you knew it
Not much to it: my heart is on my sleeveSo won't you come home...
