

Ramshackle

Beck

You've been so long
Your blind eyes are gone
Your old bones are on their own
So take off your coat
Put a song in your throat
Let the dead-beats pound all around We will go
Nowhere we know
We don't have to talk at all
Hand me downs
Flypaper towns
Stuck together
One and all The bargains you drive
Buckets and bags
And all your belongings
Your train's in the sand
Ramshackle land
Let the rats watch the races We will go
Nowhere we know
'Til we find our one and all
Hand me downs
Flypaper towns
Stuck together
One and all Praises get spent
Your trick face is bent
Pigsties and prizes
Cause there's no kind of 'well'
You're suiting yourself
You leave yourself behind We will go
Nowhere we know
'Til we find our one and all
Your hand me downs
Flypaper towns
Stuck together
One and all
