They Fear Us

Randy

Borders and customs prevents people to travel and live wherever they want
How can anybody say that they own a piece of this world?
The world belongs to everybody, every corner and street, every ocean and beach
Deserts and mountains too, they all belong to youTheories like this is what the upper class fears
White, rich, males knows nothing worse than share
Their greed, their lack of care is far more than I can bareAll I want, all I need is some solidarity, some equality and freedomIt's a question of responsibility
This world can become what we want it to be
It's all up to you, it's all up to me
Things don't change by themselves you see
Its our responsibility to act
To make sure that the environment stays intact
All the pollution and damage they do, they do it to youCompanies that puts profit before environmental care
Should be boycotted, it's your obligation to stay aware
Their greed, their lack of care is far more than I can bareAll I want, all I need is some solidarity, some equality and freedom. -- Freedom
I dont need anyone
I dont need anyone -- under responsibility
I dont need anyone to decide things for me
