

New Killer

U.S. Bombs

Quiet knocks on the front door
Delivery eat the liver
Pizzas for the stocking killer
Feed it to the head in the freezerRavaging inside the trash
Theyre all on speed
Place your bets the worms crawl in
My bodies in the graveShouting in my rooms no good
I wont be saved
Take the handcuffs off me now
I smoke in chainsNo, no, no, no, no, not again
No, no, no, no, no, not again
(Skip one)
Not again
No, no, no, no, no, not again
(Skip one)Deep sleep aint what it used to be
Place your guns onto the bar and keep me company
Eyes as black as frying pans and wilmas on T.V.
Billy Ruebens burns the blood dont move it stingsNew killer
New killer
New killers, yeah
No, no, no, no, no, not again, yes again
