

# Over Exposure

[AFI](#)

I have seen ten roses bleed  
Seen new petals fall  
I have felt my soul tear  
I have felt nothing at all  
Watched what was vibrant  
Fade as shadows fall I can see it's been done  
All that was pure has been eradicated  
I can see, it's all done  
Nothing can erase the damage done I have seen ten liars love  
Seen two lovers lie  
Seen youth, blinded, smiling  
I have seen deceit handed down  
From the highest height  
Below the lowly I can see it's been done  
All that was pure has been eradicated  
I can see, it's all done  
Nothing can erase the damage done I have seen beasts  
Bathed in glory  
Tread across the angels  
As they crawl Take it all away  
Regress to nothing  
Can someone please take  
These images from my mind?
