

Save It (KC Anderson Remix)

Salt Ashes

They told me patience brings in light
But I've been without your love
I don't feel without your love
They said your kiss would poison mine
And it's nothing I can trust
But my veins won't ease the flood
Cos I still can't get enough. Save it. You don't have it in your power
To make me black out every flame
I'm bound to you until the end, oh yeah
Save it. You don't have it in your power
To make me black out every flame.
I'm bound to you until the end, oh yeah.
Tie me with rope and chase the wild.
Take me high and feed the rush
Cos at times I don't feel much
Voices of old would criticize
Seeing gold turn into rust
Gold turn into rust
When I've been without you. Save it. You don't have it in your power
To make me black out every flame.
I'm bound to you until the end oh yeah.
Save it. You don't have it in your power
To make me black out every flame.
I'm bound to you until the end oh yeah. Why you fighting me? This love won't leave.
We're feeding the fire, I feel it in my heart
Don't you give up on me
Why you fighting me? This love won't leave.
We're feeding the fire, I feel it in my heart,
Don't you give up on me
Save it. You don't have it in your power
To make me black out every flame.
I'm bound to you until the end oh yeah.
Save it. You don't have it in your power
To make me black out every flame.
I'm bound to you until the end oh yeah.
