

# Only Little Lamb

## Salvation Rain

Bet the other 99 are doing just. Fine with the shepard that to watch them all night long. Should have never gone a stray and now I'm the devil's prey wonder if the shepard even knows my name. Then he comes and picks me up ive never seen a greater love im not good enough for him to treat me this way. When I'm lost he comes to find me when there's a storm he hides me he make sure ive got water even in the desert sand. From the outside looking oh from the outside looking in you would think im his only little lamb
