

# Hey, Joe

## Sparklehorse

Hey joe  
C'mon joe  
Don't make that sad song  
Any sadder than it already is Hey jack  
Get back  
Get yourself together  
C'mon c'mon I know you're thinking about your nervous laugh  
I know exactly what you're thinking of Hey sid  
No matter what you did  
It can work out  
Work out No matter how you feel  
Right now Hey george  
Do your chores  
Don't feel sore I know it's a lot more  
Than just being poor There's a heaven and there's a star for you  
There's a heaven and there's a star for you  
There's a heaven and there's a star for you  
There's a star for you  
There's a star for you  
There's a star for you
