My Baby Cried All Night Long

Nancy Sinatra

My baby cried,all night long
My baby cried all night longHe saw me dancing with a boy named Joe
A hug and then a kiss and with the lights down lowAnd my baby cried all night long
My baby cried all night long
My baby cried all night longHe saw me messin with a boy named Lu
And baby can't do what Lu can doAnd my baby cried all night longLast night I cried all night long
Last night I cried all night longI saw my baby out on the town
Doing all the things I've done
And made brought me down
And then I cried all night long
Yeah,last night I cried all night long.(spoken)And tomorrow this story is that you shouldn't become a messing,when you shouldn't be messin.
Were you end up crying,all night long?
And that's where I am look : Crying all night long...
