

# In the Meantime

[Mela Koteluk](#)

In the meantime, what do you do  
When there's no one left but you  
And you're alone  
How do you feel when the one you love  
Doesn't, doesn't seem real  
Do you run or do you try to heal the hurt inside  
But, ooh, in the meantime, ooh  
I have found within myself  
Everything I need to get by  
'Cause I know what to do in the meantime  
Continue to love you  
There is no need for you to fear  
For I am here, I'll be right here  
All of your life  
And I am willing and able to pull you  
Pull you through, through the storm  
That might await you on the outside  
And all of your fears  
And your doubts will no longer exist  
Because God has granted you  
Your greatest wage  
And He's done the same for me  
'Cuz right now, you're all I need  
I have found within myself  
Everything I need to get by  
'Cause I know what to do in the meantime  
Continue to love you  
In the meantime what do you do  
When there is no one left but you  
And you're alone  
But in the meantime  
But in the meantime  
But in the meantime

...
