

Dune

Pendragon

Will you ever understand
What it is I do?
Is music in your soul or did it
Leave you long ago
It's a long way but some day
I'll find you and give you
Dune you're in my soul
But I won't let you win
Dune you can never move just
Slowly blow away
Oh and Dune don't you ever learn
To see things in another way?
I will conquer you
But I sink in the sand to start again Do those madrigals still haunt you?
Did they crumble fade and die?
Remember how they taught you
And you never reasoned why
It's a long way but some day
I'll find you and give you Dune you're in my soul
But I won't let you win
Dune you can never move just
Slowly blow away
Oh and Dune don't you ever learn
To see things in another way?
I will conquer you
But I sink in the sand to start again Dune you're in my soul
But I won't let you win
Dune you can never move just
Slowly blow away
Oh and Dune don't you ever learn
To see things in another way?
I will conquer you but
I sink in the sand to start again
