

# Ivory Tower

Matthew Sweet

Come down from your ivory tower  
How is it pleasing? Your master's freezing you  
Keeping you locked in a cage of your own  
Now you're a child of the things you rewind  
And the stars are defiled  
It's a crime, it's a crime  
Come down from your ivory tower  
Come on, come on, come on  
Come down from your ivory tower  
Come on, come on  
His unknowing stare doesn't make you aware  
That the fire's still going down here on the ground  
So are you a child of the things you rewind?  
Shall the stars be defiled?  
It's a crime, it's a crime  
Come down from your ivory tower  
Come on, come on, come on  
Come down from your ivory tower  
Come on, come on, come on  
Come down from your ivory tower  
Come on, come on, come on  
His unknowing stare doesn't make you aware  
That the fire's still going down here on the ground  
So are you a child of the things you rewind?  
Shall the stars be defiled?  
It's a crime, it's a crime  
Come down from your ivory tower  
Come on, come on, come on  
Come down from your ivory tower  
Come on, come on, come on  
Come down from your ivory tower
