Save Me Now

Dirty Vegas

And I was lost as you are found
And I get weak but you stay sound
Check I'm high, you hold down
Sooner or later he was bound to come out
'Cause I've been wild, I've had my time
An all of your patience had a place in my mind
Took for granted all that you know
Yeah, I got this feeling, I don't wanna let go
So come on, come on, come on now
Been down this road before, now
Wasting all this time
That we'll never get back
Now, what are you waiting for?
Now, I'm ready to take it all
Save me now
Or I'm never gonna get back
And I'm livin' without you now
And I'm just a beggar without you
So save me now
Or I'm never gonna get back
You gave me love, I gave you help
It has its uses but I never could tell
You dived in, I shared my skin
Yeah, I got this feeling, I don't wanna give in
So come on, come on, come on, now
Been down this road before now
Wasting all this time
That we'll never get back
Now, what are you waiting for?
'Cause I'm ready to take it all
Save me now
Or I'm, I'm never gonna get back

And I'm livin' without you now
And I'm just a beggar without you
So save me now
Or I'm never gonna get back
And I'm starin' at temptation
So come on and save me now

And I'm looking for salvation
So come on and save me now
And I'm starin' at temptation
So come on and save me now
'Cause I've been wild, I've had my time
For all of your patience had a place in my mind
Took for granted all that you know
'Cause I got this feeling that I don't wanna let go
Now, what are you waiting for?
'Cause I'm ready to take it all
Save me now
Or I'm never gonna get back
And I'm livin' without you now
And I'm just a beggar without you
So save me now
Or I'm never gonna get back
'Cause I got this feeling, 'cause I got this feeling
Yeah, I got this feeling, I don't wanna let go
'Cause I got this feeling, 'cause I got this feeling
Yeah, I got this feeling, I don't wanna let go
So save me now
Save me now
And save me now
Or I'm never gonna get back
