Junk the Morgue

Saint Etienne

You can look at the stars, look at the ocean
The answer's somewhere, here's what I reckon
Close your eyes, kiss the future, junk the morgueClose your eyes, kiss the future, junk the morgue
Close your eyes, kiss the future, junk the morgue
Close your eyes, kiss the future, junk the morgueLeave the planet, junk the morgue
Leave the planet, junk the morgue
You can look at the stars, leave the planet
You can look at the stars
