

# Now and Forever

## True Vibe

Now and forever I promise I will always love you  
Now and forever I'm yours Hands on the clock count the minutes, the hours  
Your love has the power, stronger than time or space  
You're the rock that I stand on, my anchor  
To you I will give all the praise  
And there's nothing that I've got to hide  
With the power of God on my side Now and forever I promise I will always love you all my life  
One thing I know for sure  
We'll be together every day I'll love you better more and more  
Now and forever I'm yours, now and forever I'm yours Lost in a dream, under stars, under moonlight  
You are the one light leading me out of the dark  
You're the breath that I breathe, all that I need  
Nothing will keep us apart and I'm giving you my guarantee  
That in you I will always believe, I believe Now and forever I promise I will always love you all my life  
One thing I know for sure  
We'll be together every day I'll love you better more and more  
Now and forever I'm yours, now and forever I'm yours All that I have I'll give to you  
You know that there's nothing that I won't do  
Whatever it takes, whatever it takes, oh yeah yeah Now and forever I promise I will always love you  
Now and forever Now and forever I promise I will always love you all my life  
One thing I know for sure  
We'll be together every day I'll love you better more and more  
Now and forever I'm yours Now and forever I promise I will always love you all my life  
One thing I know for sure  
We'll be together every day I'll love you better more and more  
Now and forever I'm yours Now and forever I promise I will always love you all my life  
One thing I know for sure  
We'll be together every day I'll love you better more and more  
Now and forever I'm yours Now and forever I promise I will always love you
