    And all my real bitches step up come to wipe a player down smoke a pound with him

Paul Wall:

I hear these haters talking seem like they're getting louder

These sweet cupcakes softer than some clam chowder

I'm from the city of powder, syrup and crack rocks?

For twenty dollars get you higher than an astronaut

    I keep a Glock in my state prop jeans

    Floating on cloud nine goin' off cold dean

    I chuck a deuce to a hater

I'm on a mission for paper  
I got lew hawk with me serving dope fiends like a waiter  
I'm on the south lee with my boy  
Big bank take little bank baby tell me what it do  
These boys talking loud but they ain't saying a thang  
But Paul Wall and Freeway will make 'em sang  
Chorus  
It's the Swishahouse state prop chain gang  
.45 cal big Glock bang bang  
I keep the tupperware tucked in my underwear  
Rain down thunder on these suckers make the clutter clear  
Let's get one thing clear I run with grizzly bears  
Bite you in your back and make you straighten out your chest hair  
I'm 100 baby no time for playing games  
I got a garden full of carats hanging in my chain  
I keep a player bought my paper fuck a hater  
Cause the real turn fake switching over like a crossfader  
I'm squashing chatter climbing up the ladder  
Cause my goal is to make my pockets fatter baby Paul Wall  
Chorus
