Lobotomy

Petey Plastic

Let me cut your brain open
And I'll give you a lobotomy
So I can ease the pain
Of when you saw your bitch
on top of me
she gave me dome
I shot a load
It was so large
She almost choked
But she was good
She cleared her throat
Down for round 2
time to reload
haha
I'm not sorry I'm just doing me
And if your mad, your out of luck
Here is a razor let it bleed
Let me cut your brain open
Let me cut your brain openRoll a joint
And smoke some weed
It will relax you
get relieved
I know your mad
Your girls a cheat
Go get tested
Stds
Your girl aint fucking
Only me
Her pussys loose
Wide screen tv
I slid right in
She clenched her teeth
I fucked her raw
And then I skeet.
I bet you thought
That I was done
I got 6 chambers
like a magnum
since we talking

bout gold wrappers
didn't use one
when I tapped her
dove right in
so unprotected
so surprised
theres no objections
Thought you should know
Your girls a ho
Covered in cum
Just like it snowed
Let me cut your brain open
Let me cut your brain open
