

# Somebody's Gotta Feel This

## Kid Rock

I used to party with the Betties on the lower east side  
Never drop top forty 'cause I always rock b-side  
G-rides and a hundred spokes to match  
We roll two deep three freaks four amps in the back I did that crack game rap game now I let my ax bang  
Livin' in sin and it's a beautiful thing  
I wanna twang like Hank rock like roll  
Got soul like Stevie when I'm under the sun and so Somebody's gotta feel this  
Someone's gotta feel this  
Somebody's gotta feel this  
Someone's gotta feel this  
Somebody's gotta feel this  
Someone's gotta feel this I never had a lot of money never made much sense  
Been chasin' bunnies like a dummy overlookin' my rent  
And spent every red cent puttin' hickeys on his bed  
He's rockin' dickie, sippin' lickie slippin' honey pop that deady steady Lookin' for love, put my talent on hold  
Told my soul to glow it said get up and go  
And so I packed my bags with a whole lot of realness  
Somebody's gotta feel this Someone's gotta feel this  
Somebody's gotta feel this  
Someone's gotta feel this  
Somebody's gotta feel this  
Someone's gotta feel this I see these people makin' money and it's funny to me  
Tryin' to act that fresh I wish they'd bump into me  
'Cause it ain't nothin' to me want to eat a little more  
Taste a little bit pride from every drink that I pour I've been a whore for years showing love to my peers  
Never sold for any less than what I see in the mirror  
Steer wide to avoid the blows I've been dealt  
Let the six strings ride when the twelves are felt So when you see me tuggin' on the end of my rope  
You better raise up or duck when I reach in my coat because Somebody's gotta feel this  
Someone's gotta feel this  
Someone's gotta feel this  
Somebody's gotta feel this Someone's gotta feel this  
Somebody's gotta feel this  
Someone's gotta feel this  
Come on feel this  
Uh, uh, come on
