

Kicks

Sahara Hotnights

There've been some smash and grab burglaries in this town
Took what they could find and they got kicks out of it
Every time the perfect crime And with the cherubic swines
Only waiting for the right move to show
Hey, you beautiful bastards we're fooling
The sons of the neighborhood
The perfect crime Tell everyone that we always have round the clock service
Go tell everyone that we steal and never show mercy
Tell everyone we are now taking care of your brother
Let's take your skin, let's take your skin And they're been some smash and grab burglaries in this town
The bloodhounds couldn't bark 'cause they never left some mark
So very professional perfect crime Tell everyone that we always have round the clock service
Go tell everyone that we steal and never show mercy
Go tell everyone we are now taking care of your brother
Let's take your skin As we're playing this wonderful game
Here's to all of you trying to understand
We get kicks out of smelling our own breath
Our own breath Tell everyone that we always have round the clock service
Go tell everyone that we steal and we never show mercy
Go tell everyone we are now taking care of your brother
Let's take your skin, let's take your skin
